

Dietl International Safety Agreement

DIETL International is abiding by the guidelines put forth by the Art Service Workers Safety Coalition to provide protections to all parties during all professional transactions with DIETL and in-person appointments. Please review our procedures and apply these directives for all work including collections, deliveries, installs and site visits. In advance of our vendor or technicians visit to your location, we affirm that our staff has been trained on proper social distancing guidelines and will be prepared with personal protective equipment (PPE) in the form of face coverings, latex or nitrile gloves and hand sanitizer. It is our expectation that the reciprocal efforts outlined below be made by you and your staff to ensure the safety of all parties.

- You and your immediate staff will be prepared with personal protective equipment (PPE) in the form of face coverings and hand sanitizer. Masks will always be worn by all participants.
- Outside contractors or vendors on-site and in close proximity to our representatives, must also have personal protective equipment (PPE). If they do not, then we ask that they vacate the immediate area for the duration of our representative's visit.
- When applicable, all artworks or objects to be viewed/collected, installed/deinstalled will be staged in advance in a sanitized, well ventilated area with adequate space for proper social distancing to be observed. If you do not have adequate space, we ask that you inform us in advance so that additional PPE can be provided, or an alternative plan for viewing and/or packing of objects can be arranged.
- If signatures are required on paperwork, you will provide your own writing utensil or agree to an electronic exchange of signatures via email.
- You will inform us immediately if someone at your location, either before or within 14 days of our visit, is exhibiting known symptoms of COVID-19.
- Please confirm the procedure for your specific job with your DIETL representative in advance. If you or your organization require additional safety measures over and above those we have in place, we ask that you inform us at time of booking so that preparations can be made if possible.

If situations arise at any point prior or during our work that are deemed detrimental to our representatives' safety, we reserve the right to cancel or postpone the visit until the appropriate safety measures can be put in place.
